LOCAL SUBJECTS.

MYSORE DISTRICT.

(*Nos. 236 to 265*).

SUBJECT No. 236.

Establishment of a Munsiff's Court at Hunsur.

Messrs. H. R. Tiruvengadasami Mudaliar and W. C. Petrie Hay, Hunsur Taluk.

Summary of discussion.—The people from the north-west of this taluk have to travel 60 miles to attend Civil Courts at Mysore. It is therefore prayed that a Munsiff's Court may be established at Hunsur, which is within a radius of 15 or 20 miles from Heggaddevankote and Yedatore Taluks. The trouble and expense of going to Mysore are very great. A building is available at Hunsur.

Reply of Government.—Noted for consideration.

SUBJECT No. 237.

Improvement of Hunsur water-supply.

Messrs. H. R. Tiruvengadasami Mudaliar and W. C. Petrie Hay, Hunsur Taluk.

Summary of discussion.—It is prayed that arrangements may be made to supply the whole town with water, as by the present system only half the town is supplied with water.

Reply of Government.—Noted. The matter is under correspondence.

SUBJECT No. 238.

Location of the Revenue Sub-Division Office at Hunsur.

Messrs. H. R. Tiruvengadasami Mudaliar and W. C. Petrie Hay, Hunsur Taluk.

Summary of discussion.—It was promised some two years ago that the Revenue Sub-Division Office would be located at Hunsur and even arrangements were made to provide quarters for the same. But nothing seems to have been done in the matter of carrying out the proposal into effect. It is therefore prayed that the Sub-Division Office may be shifted from Mysore to Hunsur as promised some time back.

Reply of Government.—It is not possible to give effect to the proposal on administrative grounds.

SUBJECT No. 239.

Sub-Taluk at Periyapatna.

Messrs. H. R. Tiruvengadasami Mudaliar and W. C. Petrie Hay, Hunsur Taluk.

Summary of discussion.—Hunsur Taluk is a very large one and there are more than 200 criminal cases in a year, which is more than what one Amildar can cope with in addition to his other multifarious duties. It is therefore prayed that a sub-taluk may be established at Periyapatna.

Reply of Government.—Noted.

SUBJECT No. 240.

Raising the level of the Uddur channel.

Messrs. H. R. Tiruvengadasami Mudaliar and W. C. Petrie Hay, Hunsur Taluk.

Summary of discussion.—As the present pipes laid in the Uddur channel are quite inadequate to irrigate the wet lands under it, it is prayed that the level of the channel be raised to ensure a better supply of water for irrigation.

Reply of Government.—Referred to the Public Works Department for investigation as to the feasibility of the proposal.
